Step 2: Set Output Directory

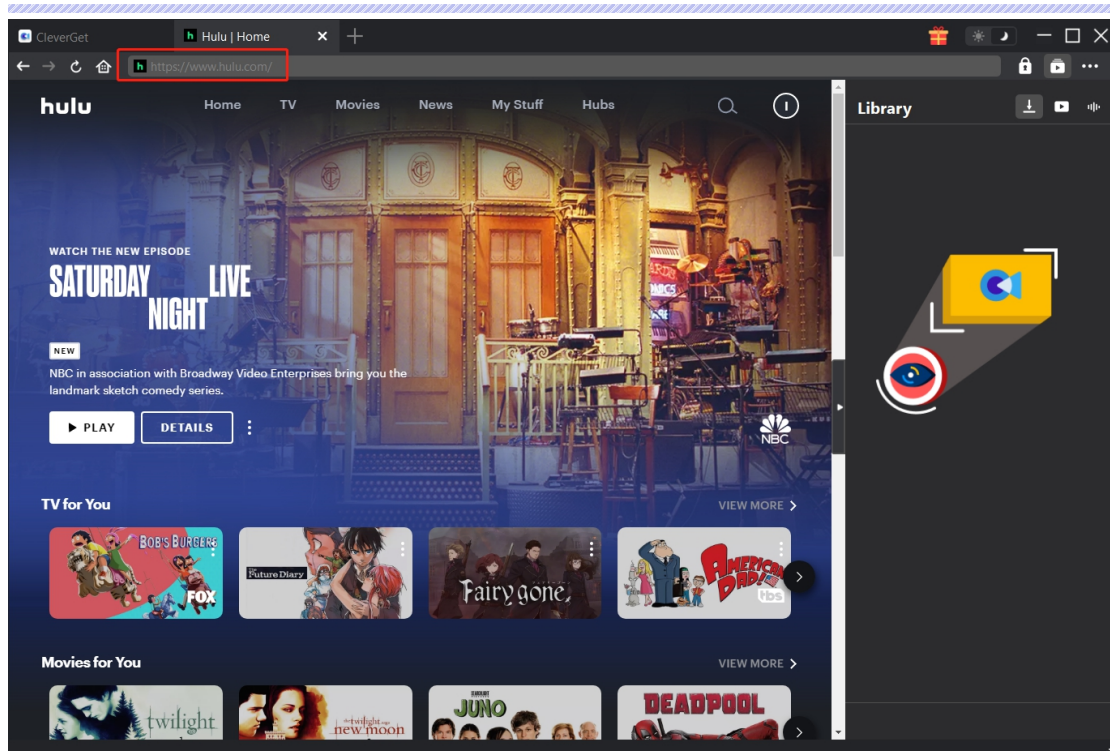

CleverGet has default download directory to download Hulu shows and movies, but allows custom change for personal preference. Click the three-dot icon **•••** and then click “Settings” option to open “Settings” panel. Under “General” tab, you can set output directory in the “Save Video To” and “Save Audio To” boxes and change other settings like program UI language,

appearance, max download tasks, etc. Checking “Create subfolder for each stream service” option will save online videos in related sub-folder according to video website. Finally, click “Save” button.

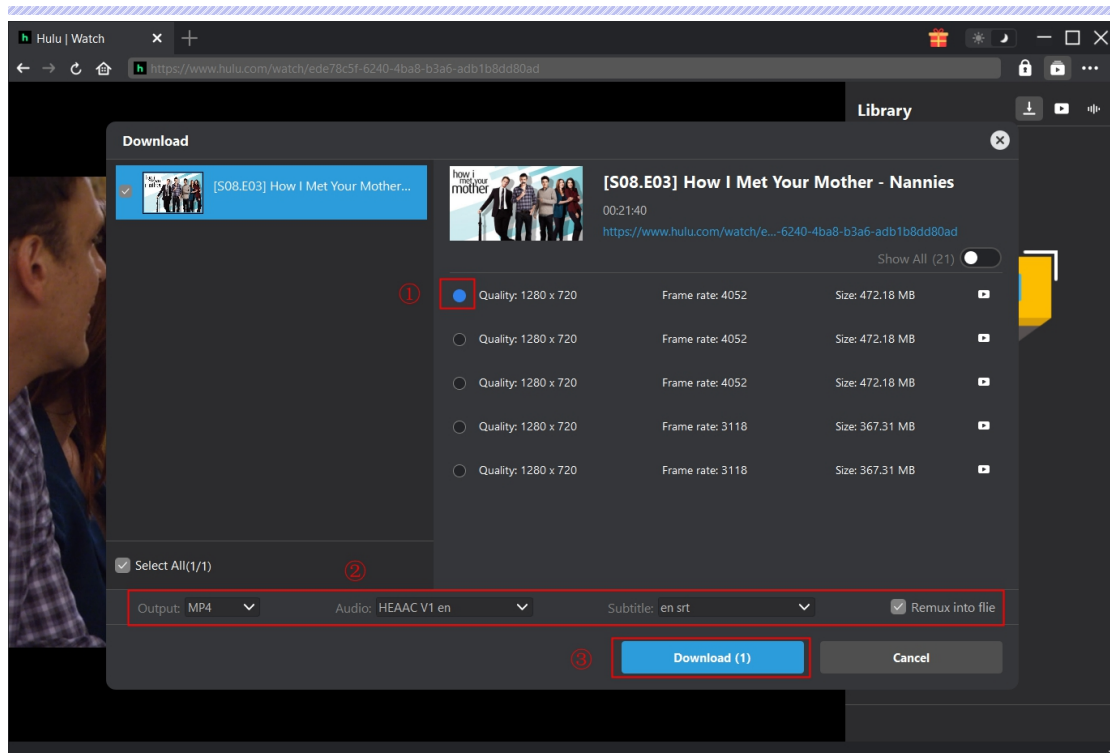

Step 3: Search for Target Videos

You could directly copy and paste Hulu video URL into the address bar to open, play and download Hulu video within CleverGet. CleverGet allows you to log into Hulu with your own account and password. Also, you could open Hulu home page, log in and then search for target video for downloading within CleverGet.

Step 4: Select Hulu Video and Download

Once you open Hulu video page, you will see the download icon  at the bottom right corner. Click it to order CleverGet Hulu Downloader to analyze the video URL. After parsing, all available download options will be displayed on a pop-up "Download" interface, in different quality/resolution, frame rates and sizes. Choose the right resolution you want to download, and then determine either MKV or MP4 as output format, select audio tracks and subtitles, and decide whether or not to remux subtitles into output video file. Afterwards, click "Download" button to start downloading Hulu shows/movies.

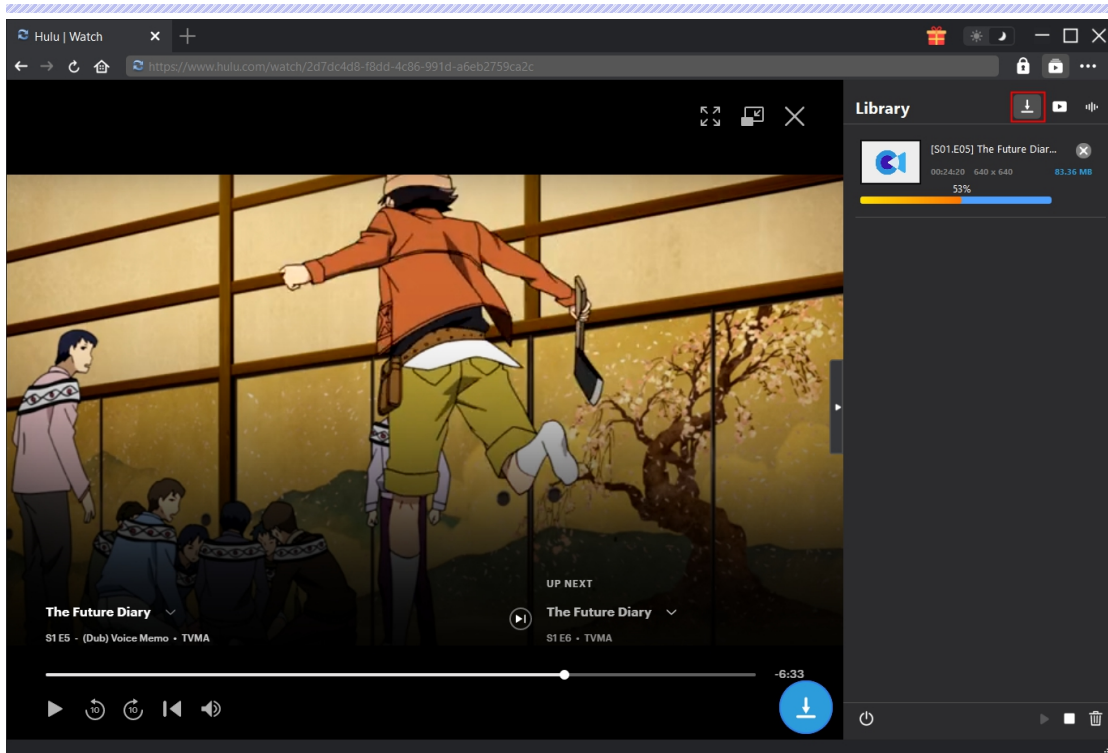

Note: Subtitles will be packed into output video if you check "Remux into File" option. Otherwise subtitles will be saved in either SRT or SUP format separately.

Step 5: Check Downloading Process

On the right sidebar, there will pop up a sidebar that showcasing you the download progress.

Click "Downloading" icon  to check out the video in downloading. You could view the

downloading progress and speed. Click "Close" icon  to end and delete the task anytime you like.

Step 6: Check Downloaded File

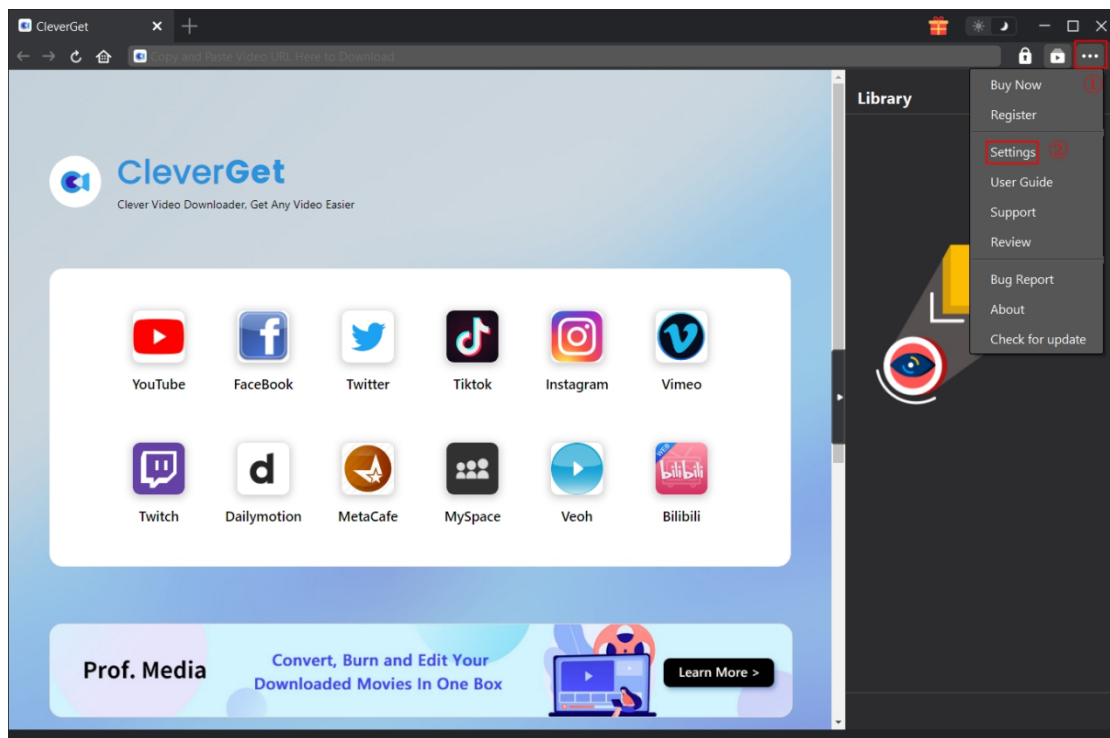

When downloading completes, you can check downloaded files according to file types: video or audio. Click "Play" button on the thumbnail of downloaded file to play it or click "Open Folder" to open file in its exact location. Right-click file to choose to play it with [Leawo Blu-ray Player](#), delete it, delete all downloaded tasks or open source web page.
