Step 1: Download and Install CleverGet TwitCasting Downloader

Firstly, free download and install CleverGet TwitCasting Downloader on your computer. It's available in both Windows and Mac versions, totally free and clean to download and install. Download and install the right version of CleverGet on your computer.

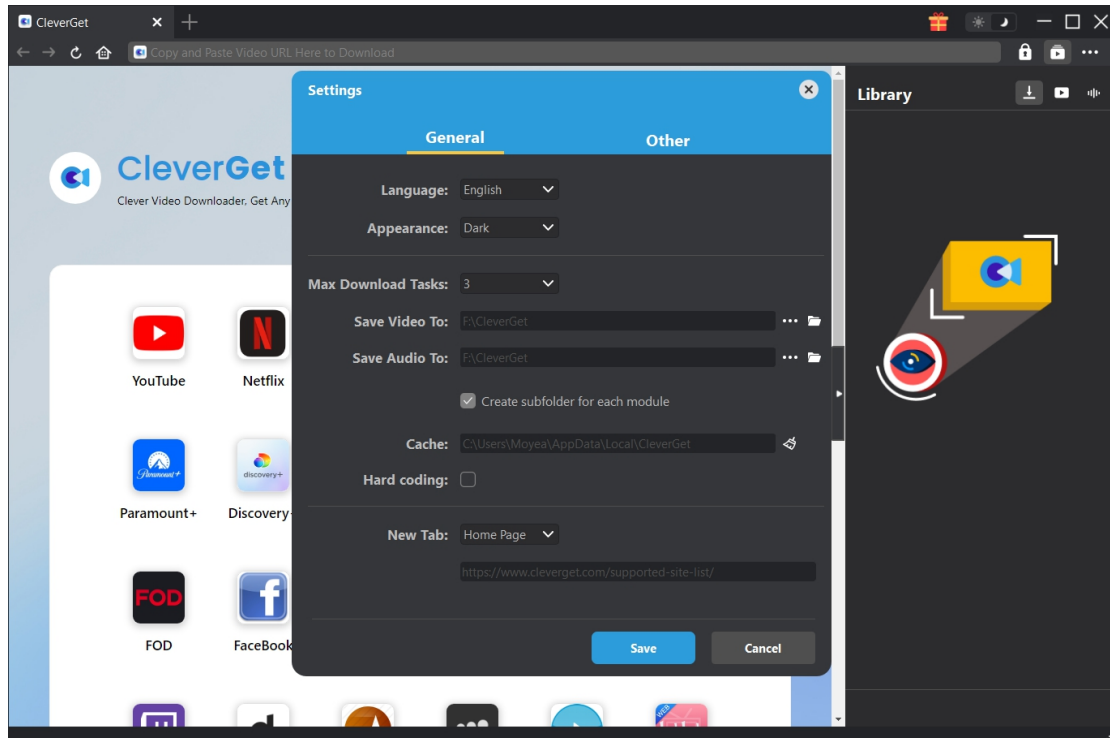

Note: CleverGet TwitCasting Downloader is a module built in [CleverGet](#) program.

Step 2: Set Output Directory

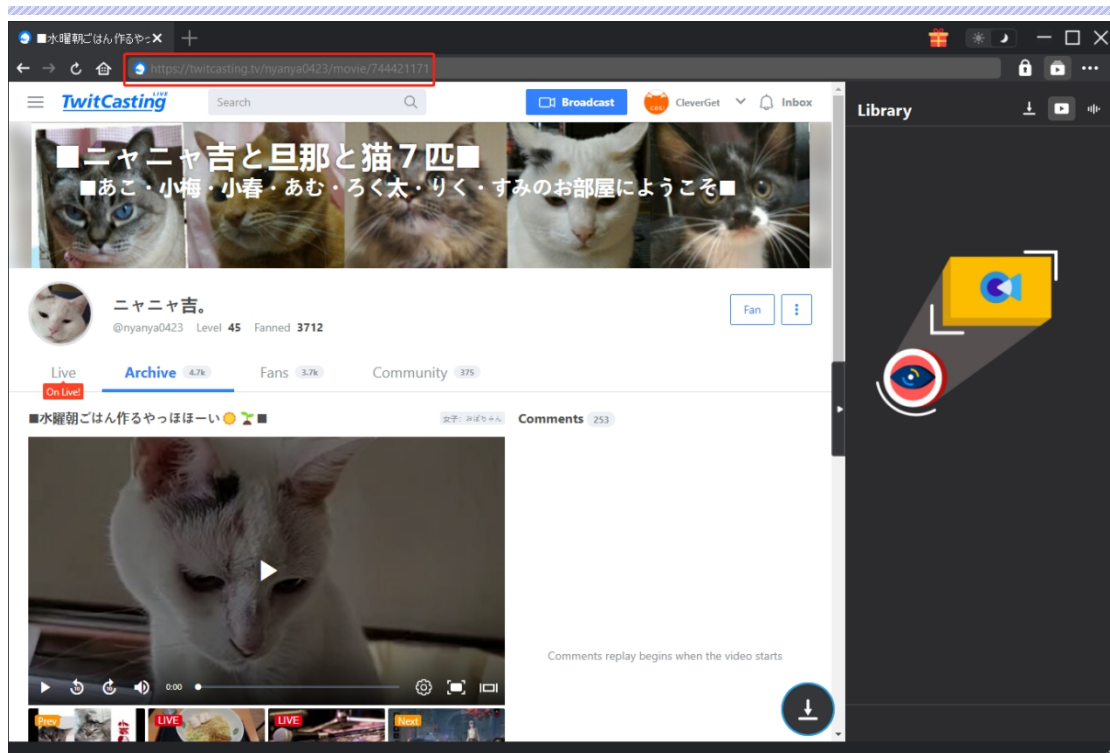

Before downloading videos from TwitCasting, you could firstly adjust some settings like download directory, max downloads, language, appearance, etc. On CleverGet program, click the three-dot icon **...** and then click "Settings" option to open "Settings" panel. Under "General" tab, you

can set output directory in the “Save Video To” and “Save Audio To” boxes and change other settings like program UI language, appearance, max download tasks, etc. Checking “Create subfolder for each module” option will save online videos in related sub-folder of corresponding modules. Finally, click “Save” button.

Step 3: Log in TwitCasting.tv and play target video

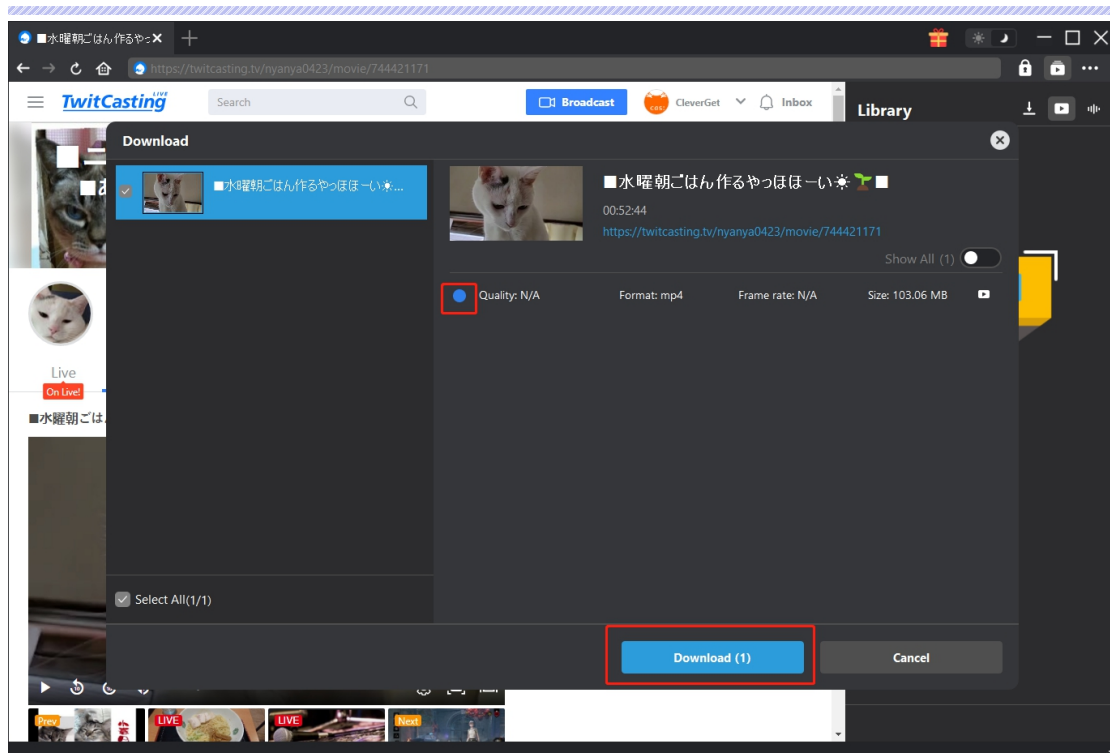

Open the TwitCasting.tv within CleverGet, and search for target video to download within TwitCasting.tv website. Play back the TwitCasting video you want to download. Of course, you could also directly copy and paste the TwitCasting video URL into the address bar of CleverGet for downloading. Log into your account within CleverGet if you want.

Note: Make sure you have entered the TwitCasting video playback page for successful video parsing.

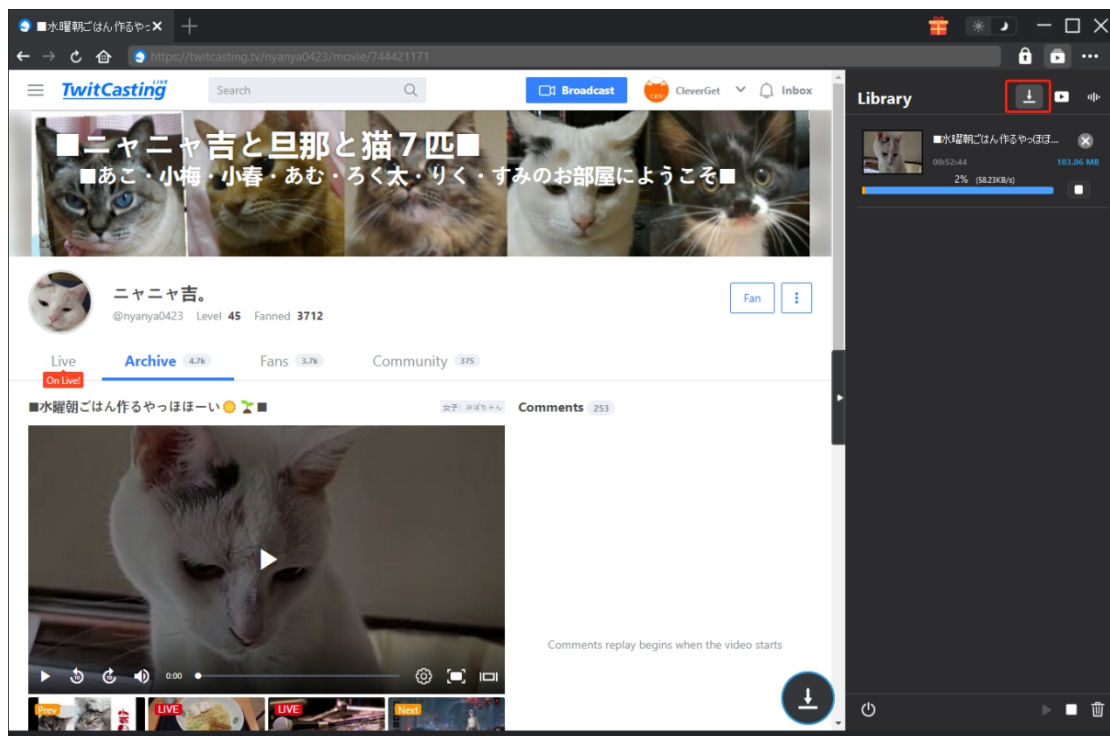

Step 4: Select TwitCasting Video and Download

Once you enter the video playback page, CleverGet TwitCasting Downloader would start to parse target TwitCasting video URL automatically. You could see a rotating icon at the bottom right corner of the TwitCasting video page. If CleverGet TwitCasting Downloader successfully parses the video, it will pop up a “Download” interface with all available download options listed in different quality/resolution, format, frame rates and sizes. Choose the one you want to download and then click the blue “Download” button to start downloading TwitCasting videos.

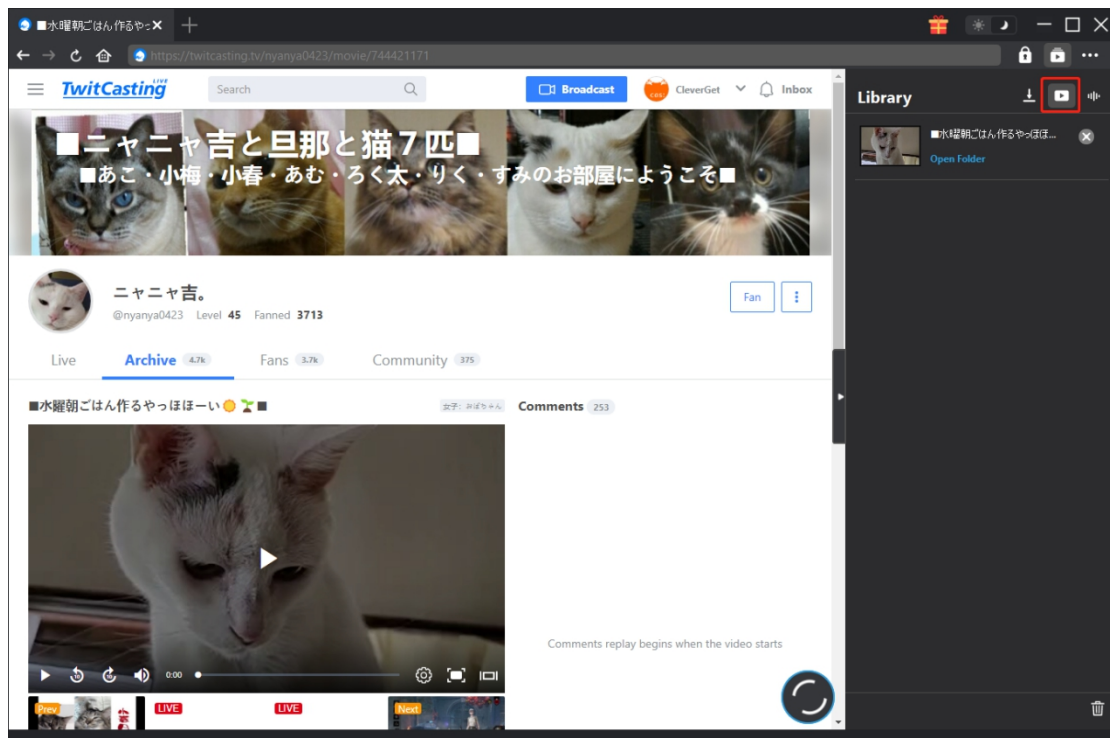

Step 5: Check Downloading Process

Once you have started TwitCasting video downloading task, there will pop up a sidebar on the right showing you the downloading progress under the “Downloading”  tab. You could view the downloading progress and speed, stop, cancel or delete downloading task anytime you like.

Step 6: Check Downloaded TwitCasting Videos

When downloading completes, it will automatically open the downloaded panel under the “Video” tab . Under the “Video” tab, you could view all downloaded videos. Click “Play” button on the thumbnail of downloaded file to play it back with your default media player, or click “Open Folder” to open the local folder that saves downloaded videos. Right click to play it with [Leawo Blu-ray Player](#), delete a single video, delete all downloaded tasks, or open source web page.

Note: CleverGet TwitCasting Downloader couldn't download Live videos purchased from TwitCasting Store. The free trial version allows up to 3 free downloads, therefore try to use it before purchasing the registration code.

How to Set CleverGet TwitCasting Downloader

CleverGet TwitCasting Downloader has default settings for downloading TwitCasting videos. But you can adjust the default settings of CleverGet according to your own needs. On the top right corner of CleverGet, click the three-dot icon and then you could see a drop-down menu, which includes multiple options: Buy Now, Register, Settings, User Guide, Support, FAQ, Review, Bug Report, About and Check for update. Click any option to get help you need.
