Brief Introduction

CleverGet Twitch Downloader is the best Twitch Clip Downloader trusted and loved by millions of Twitcher from all over the world. It helps users get rid of trouble seeking M3U8 links since it will get them automatically when users are streaming the live streaming videos. What's more, this formidable Twitch videos downloader enables you to save up to 4K HD live videos and past broadcasts easily at 60fps at a time. With inherent browser, downloading live streams and recorded broadcast from Twitch is as convenient and efficient as browsing a web.

Main features:

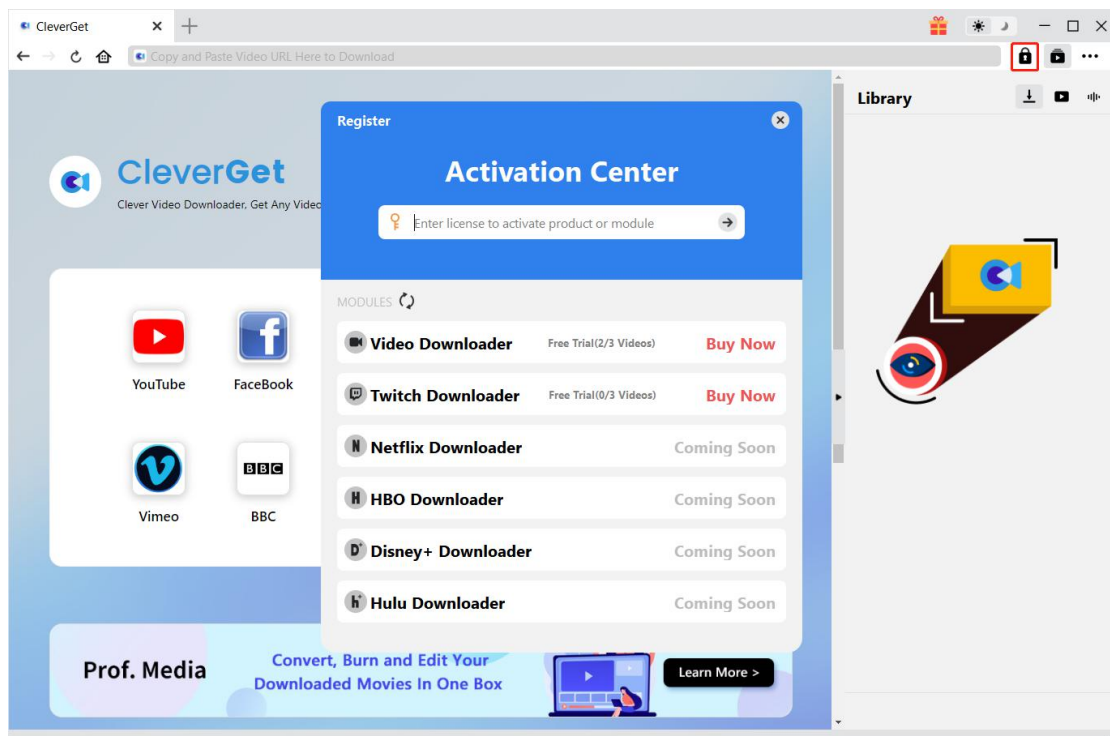

1. Download live streams or past broadcast from Twitch easily
2. High quality downloading with selectable options
3. Grab M3U8 links automatically
4. Support multiple tasks downloading
5. High speed of downloading
6. Built-in player and browser
7. Provide precise video information

How to Register CleverGet Twitch Downloader

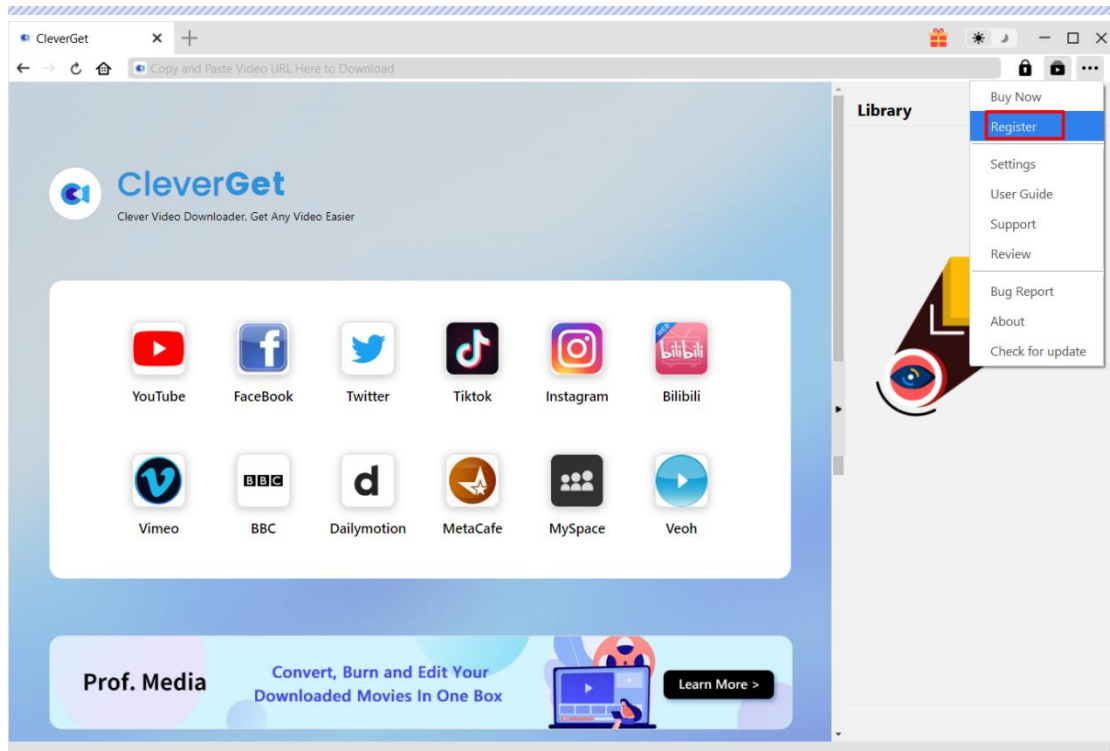

1. Activate with registration code

Two ways of registering in the program are available:

- a. Click the “Activate” button  in the top right corner to enter “Activation Center”. Copy and paste the registration code into the code box. Tap “Enter” key on keyboard or click  to activate.

- b. Go to more options  and find “Register” to enter “Activation Center”.

2. Get registration code

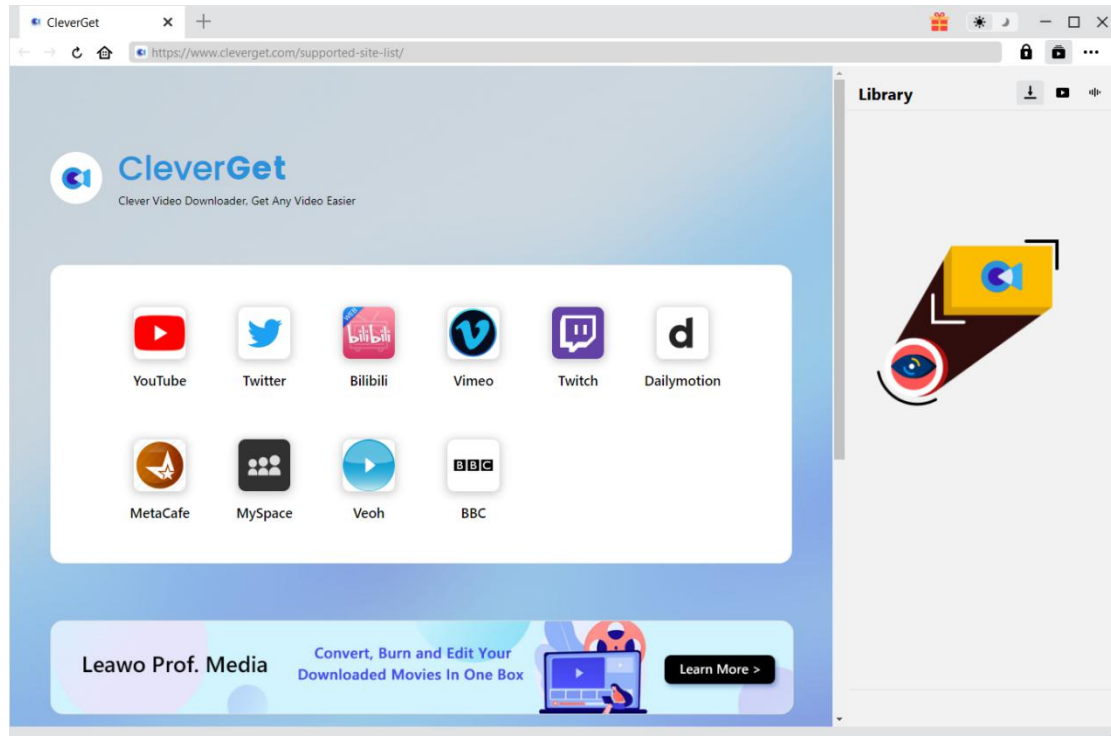

On the “Activation Center”, choose the modules that you want to get registration code for and then click “Buy Now”. After you click the button, it’ll take you to the purchase page of CleverGet, where you can purchase the registration code for all modules. Select validation according to your needs and then click “Check Out Now” to go to the payment page. Fill in the information it needs in the payment page and pay for the bill. The registration code will be sent to your E-mail box after you finish the payment in no time.

How to Download Videos from Twitch?

Step 1: Download and install CleverGet

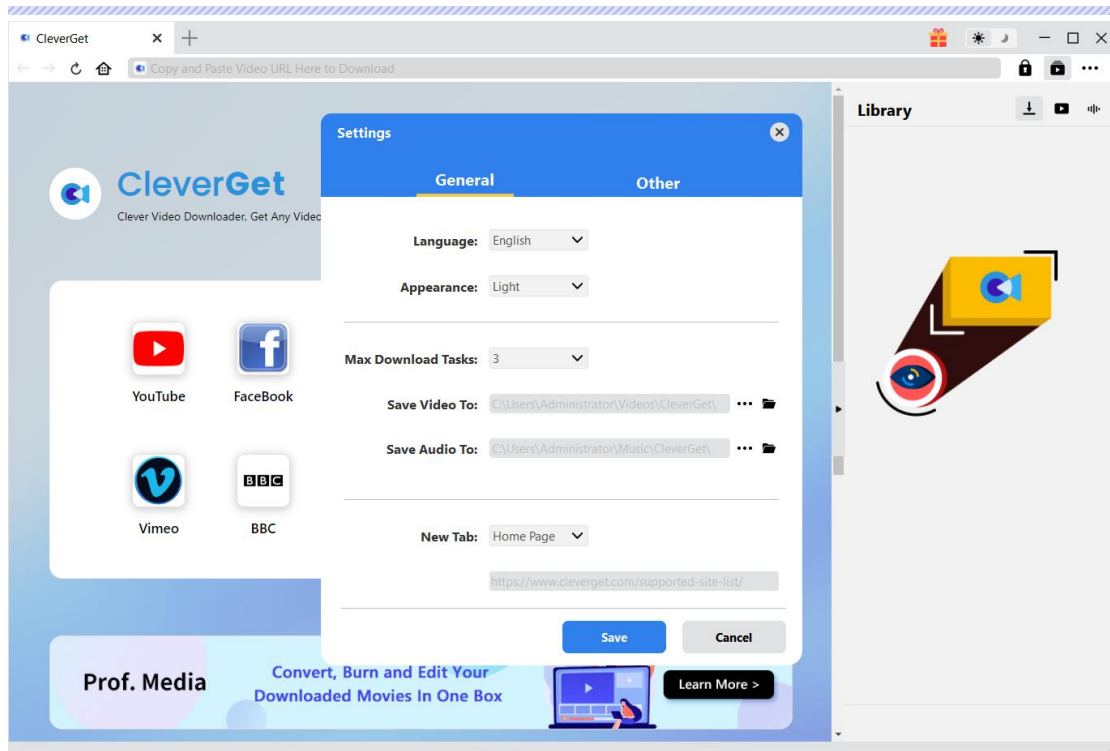

Go straight to the official website of CleverGet to download installation package. It is free to download and install.

Note: CleverGet Twitch Downloader is a component of CleverGet program.

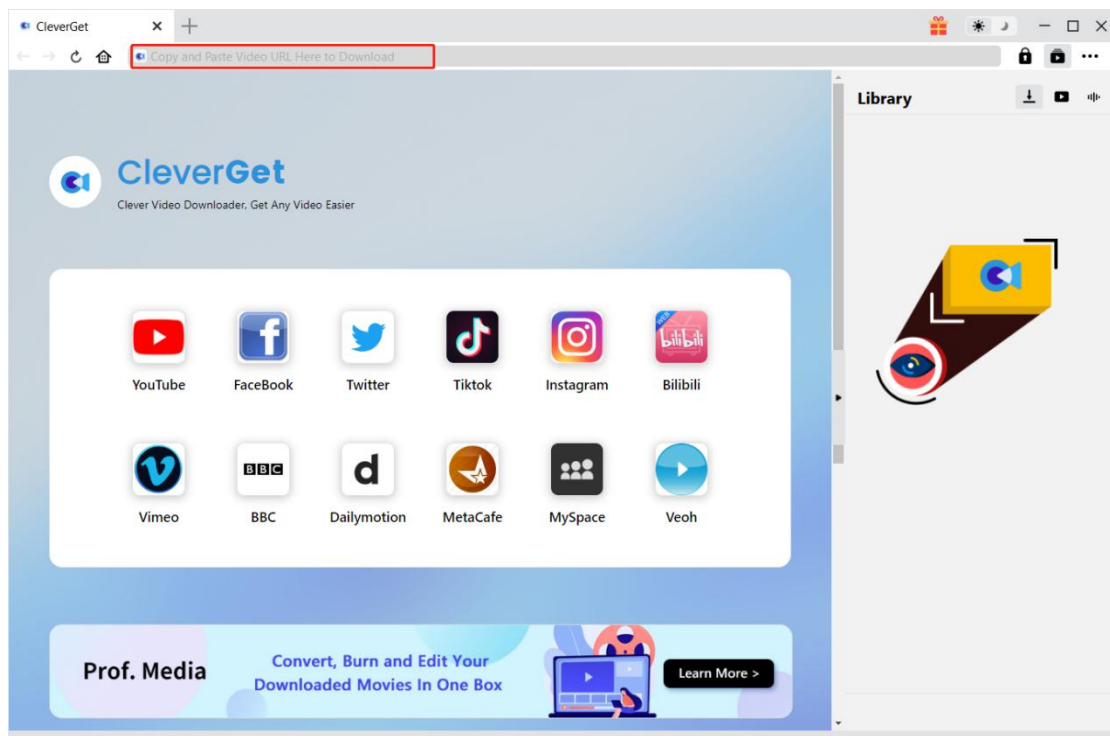

Step 2: Set output directory

Before you start downloading Twitch videos, you should set output directory. Click the three-dots icon **⋮** and then “Settings” to pop up detailed settings panel. Under “General” tab, you can set output directory in the “Save Video To” or “Save Audio To” box and change other settings. Finally, click “Save”.

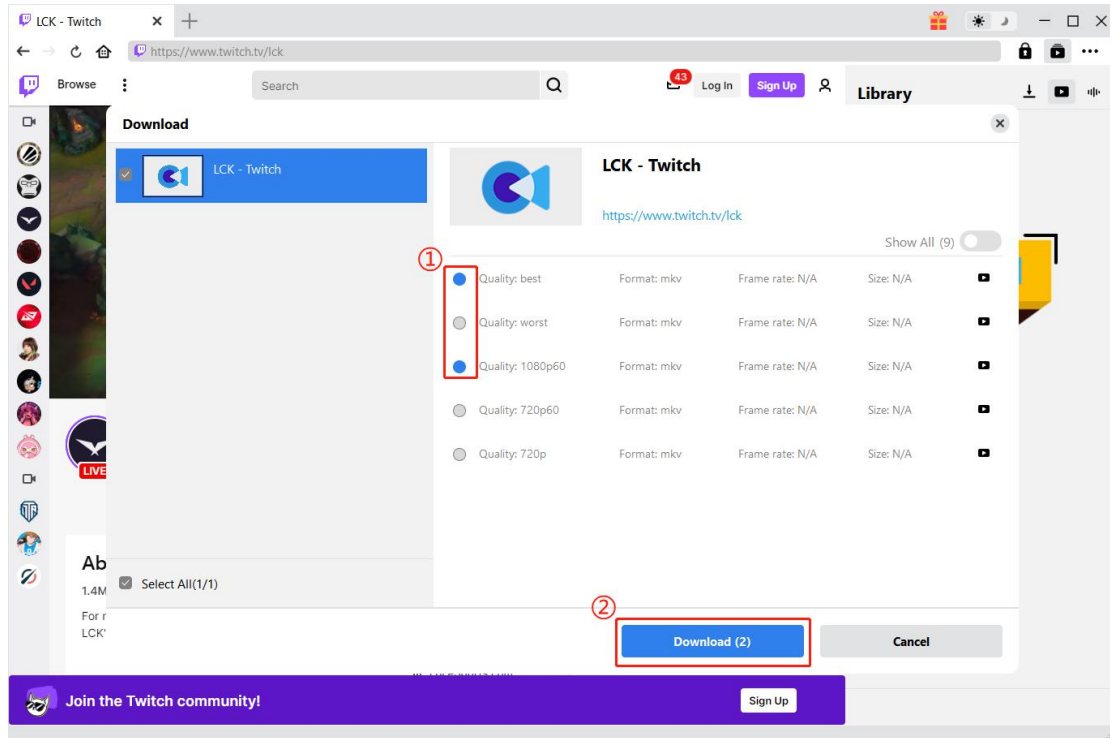

Step 3: Search for target videos

Fill in site of the target live streams in the address bar and tap “Enter” on the keyboard. Or search for target clips you want to download within Twitch. You don’t need to look for the M3U8 link of live stream as CleverGet Twitch Downloader could directly download live videos for you.

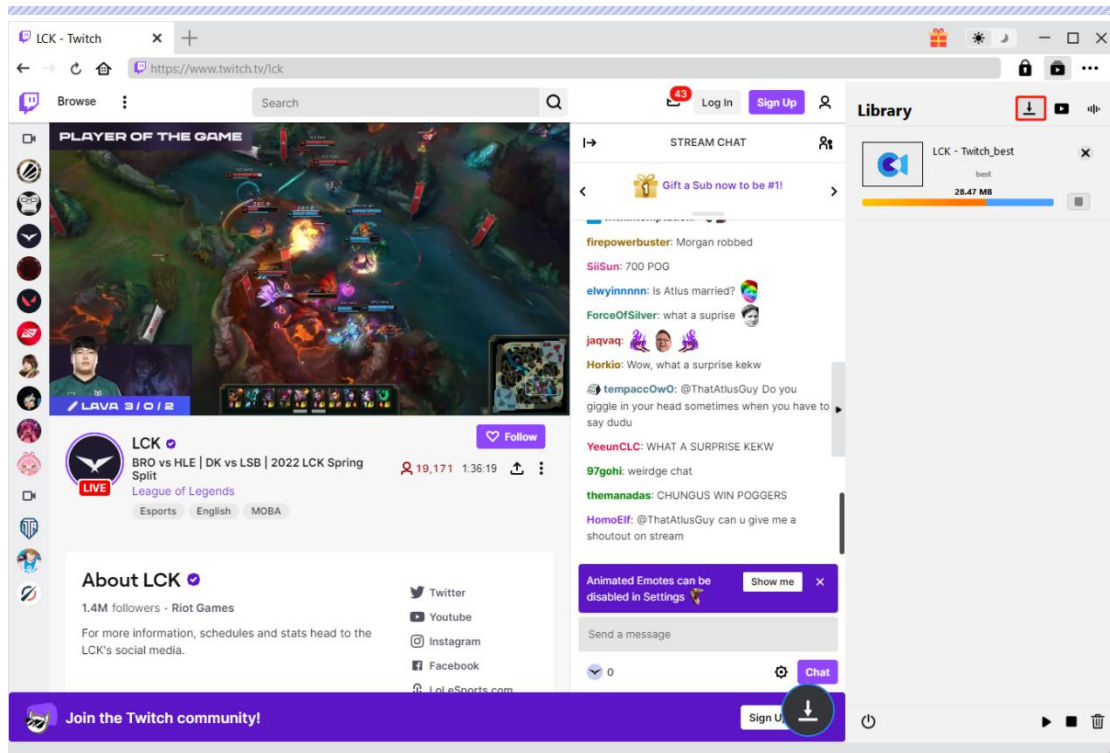

Step 4: Download video

Once you open a video link, CleverGet Twitch Downloader will detect available sources to download. Videos are listed in different formats, sizes and resolutions. Select desired video download option(s) and then click “Download”.

Step 5: Check downloading process

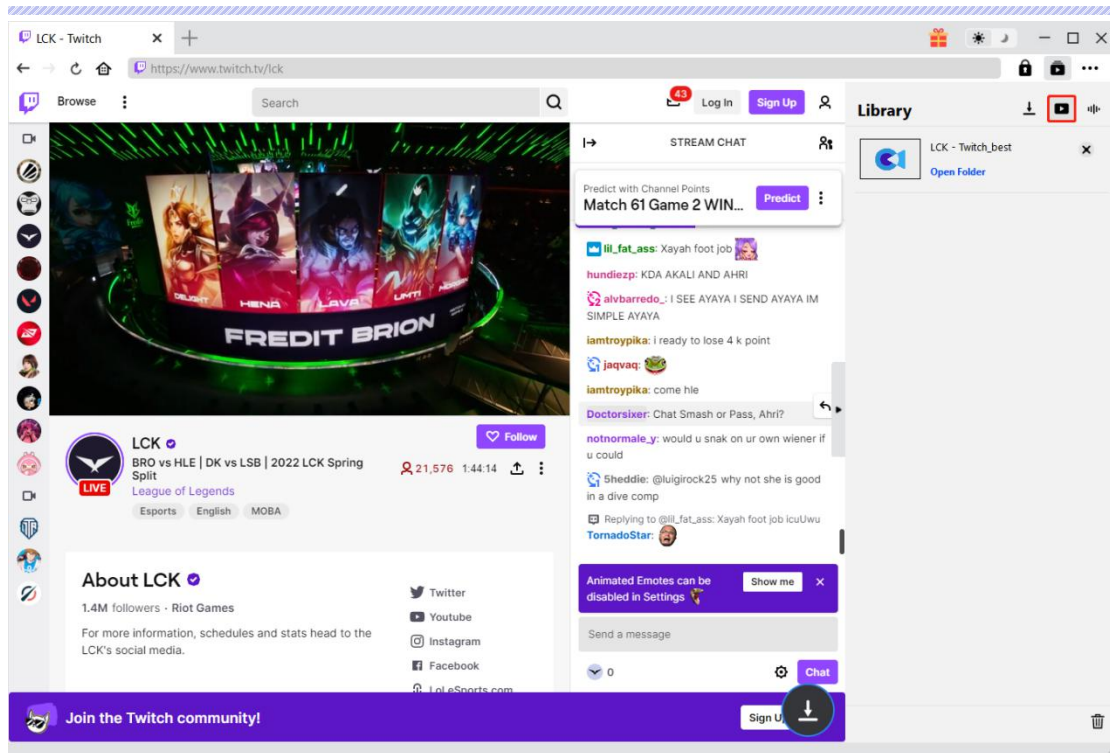

Click “Downloading” icon  to check out the video you are currently downloading.

Click “Stop” icon  to stop the proceeding task and “Close” icon  to end the task.

Step 6: Check downloaded file

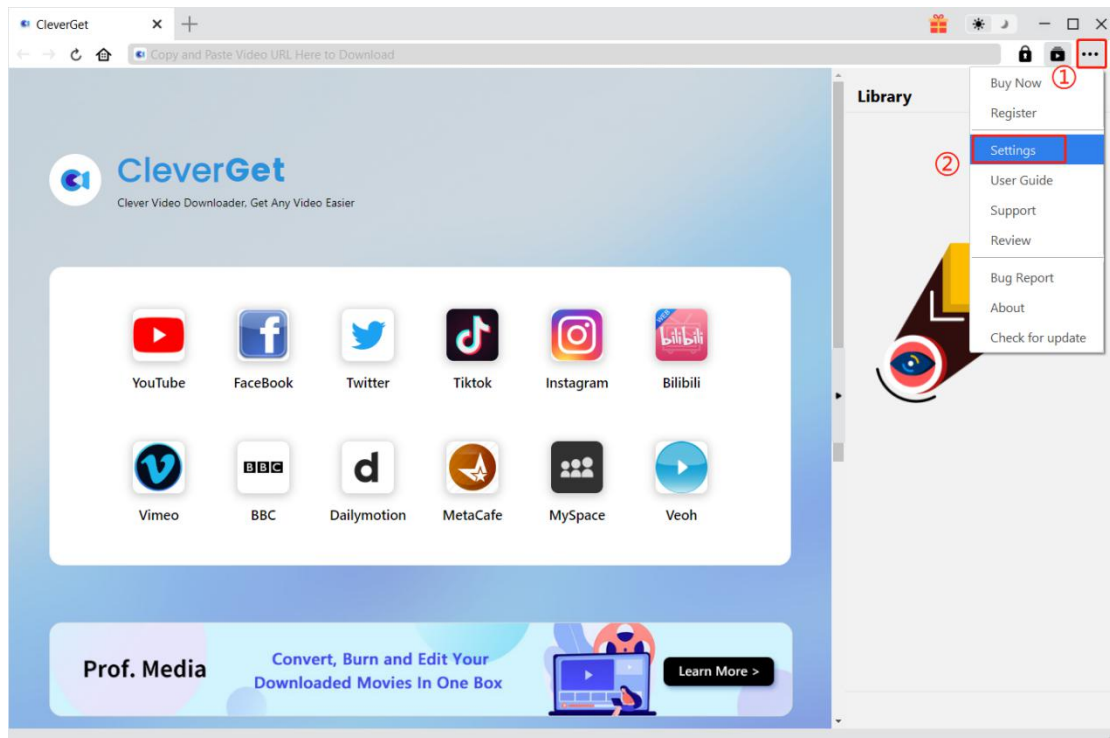

When the process of downloading is finished, you can check downloaded files according to file types: video or audio.

Click “Play” button in the thumbnail of downloaded file to play it or click “Open Folder” to open file in its exact location. Right-click file to choose to play it with Leawo Blu-ray Player, delete it, delete all or open web page where it was downloaded.

Settings Panel in CleverGet

CleverGet is user-oriented and there are abundant settings for facilitating operation and improving user experience. Users can click three dots icon to look for “Settings” to enter settings panel. After all settings are finished, click “Save” to save all changes.

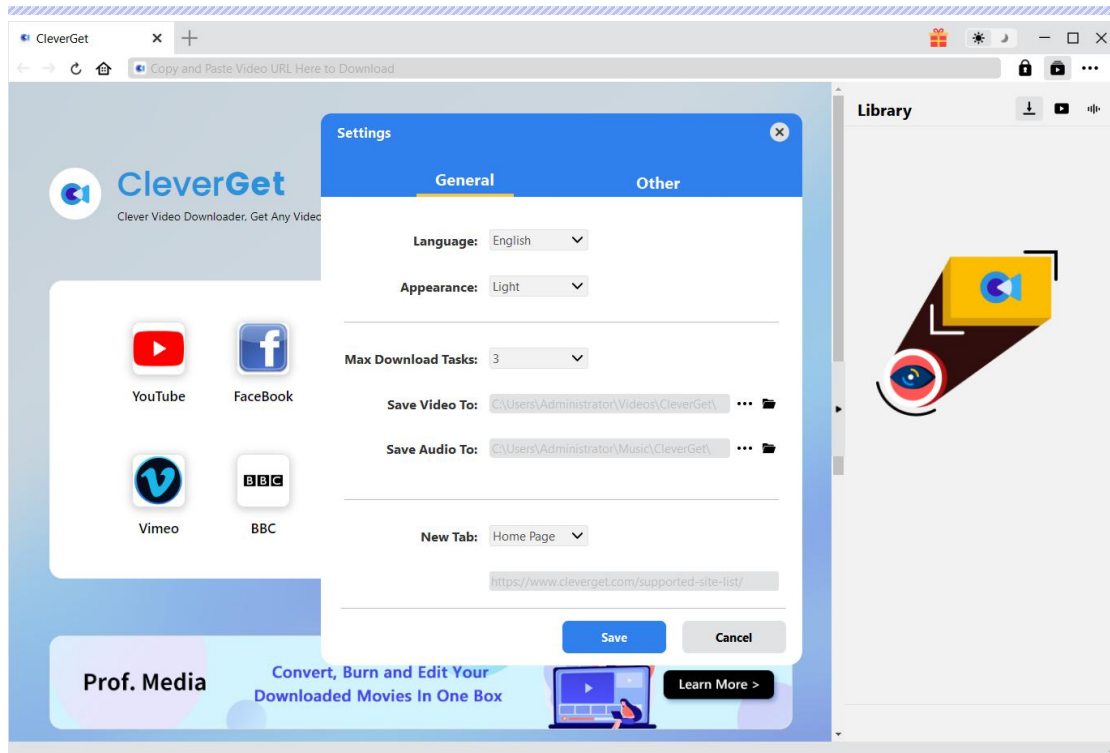

There are several tabs in the settings panel. Here we introduce them one by one.

General tab

In the “General” tap, you can find almost all basic settings that you may need. Here we have:

1. **Language.** You can change interface language in this section, where 5 languages are selectable.
2. **Appearance.** It allows you to convert between light and dark mode and you are able to change it directly with “Light/Dark Mode” icon  on the main page.
3. **Max Download Tasks.** Ranging from 1 to 5, maximum volume of download tasks are changeable.
4. **Save Video To.** Change output video files location.
5. **Save Audio To.** Change output audio files location.
6. **Home Page.** Users are happy to find that they are able to set default page or custom page as home page as they like.
7. **New Tab.** Choosing to open a new tab to default page or blank page is available in this section.

Other tab

Other tap includes “Automatic Update” feature and you can click to open or close. If you enable “Automatic Update”, set frequency that you suppose CleverGet to check for update with in “Check the Update”.
